

Eclipse Total Solutions Limited is committed to minimising the impact of its activities on the environment. We must collectively work on our carbon footprint and year on year look to reduce our per employee carbon footprint.

The key points of its strategy to achieve this are:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible. (Including e-waste)
- Minimise toxic emissions through the selection and use of its fleet and the source of its power requirement, wherever possible choosing the most environmentally friendly method of travel
- Actively promote recycling both internally and amongst its staff, customers, and suppliers.
- Source and promote a product range to minimise the environmental impact of business operations. Wherever possible sourcing re-cycled materials or consumables.
- Meet or exceed all the environmental legislation that relates to the Company.

We will ensure this policy is implemented throughout our operations by:-

- Ensuring all our employees understand the environmental impact of their own jobs and tasks.
- Periodically reviewing environmental issues at the highest level within the business.
- Reviewing the policy and its effectiveness on an annual basis.
- Training, educating, and informing our staff about the environmental issues that may affect their work, and promote environmental awareness among our staff, encouraging them to work in an environmentally responsible manner.
